About JOIN

**Join is the only Italian-owned company in the conferencing market.
We have been in the Italian market for 15 years
and our staff has a proven experience in conferencing of more than 20 years.
We are a worldwide Conferencing Service Provider for
professional audio, video and web communication services:
conference call, video conferencing, web conferencing and streaming.**

JOIN offer

**Join is the first Italian conferencing provider offering
a complete range of communication services:**

JOIN AUDIO

A professional audio conference service that allows you to access meetings from any country in the world, using toll and toll-free access numbers or the appropriate app. The service offers management of reports, registrations and Q&A sessions. It is also possible to manage the conference online thanks to the dedicated web interface.

JOIN WEBINAR

A service based on Zoom technology; it is the easiest audio/video webcast service at the most affordable price. It allows you to reach a large audience through videos and presentations without any technical installation or special requirements.

JOIN HEALTH

JoinHealth is a mobile telemedicine platform that ensures peace of mind that the physician provides a remote physical platform using the TytoCare device. It includes an examination of the heart, lungs, ears, throat, temperature and skin.
Where and when you need it, without certifications, you can have the services of the best specialists.

JOIN CARRIER

JoinCarrier offers national and international telephone numbers, geographic, toll-free and shared in VOIP numbers to be connected to the JoinPhone switchboard or any other VOIP switchboard. Compatible with other solutions, such as Skype for Business and Teams.

JOIN PHONE

A new solution aimed at small and medium-sized companies that need an advanced telephone switchboard, taking advantage of high-tech services, reducing telephone costs.

JOIN VIDEO

An innovative HD video conferencing service in the cloud on Vidyo technology that will amaze you with high definition quality, clear audio and ease of use from any terminal: personal computer, laptop, tablet, smartphone, videoconference endpoint. and SIP.

JOIN VIRTUAL EVENT

A Virtual Event is an event organized in an artificial scenography. In a VIRTUAL SET the speaker can be surrounded by LED walls and floor, which allow instant visual feedback with the surrounding environment. All this allows the speaker a more natural interaction with the space, being able to show what surrounds him. The same result can also be obtained on GREEN SCREEN. No longer needing a real scenography, it is now possible to adapt the environments dynamically according to the needs of the event.

JOIN EDUCATIONAL

A videoconferencing service dedicated to schools. Each classroom is replaced by a virtual classroom with a dedicated access. Usage friendly for both teachers and students and completely controllable by school's Principle and Director.

JOIN VIDEO

THE REVOLUTION OF THE PERSONAL TELEPRESENCE

JOINVIDEO is a state-of-the-art videoconferencing service that will amaze you with its HD video quality, clear sound and simplicity of use directly on your PC, which turns into your personal telepresence station.

To access your meeting room just enter your data on the portal of the service. You can start a videoconference with one simple click!

During the meeting you can share documents, presentations, the entire desktop and any other application on your or other participants' computers.

A virtual room is always at your disposal for your meetings with telepresence quality, and you don't need any special hardware or QoS networks. ADSL internet connection and a PC are enough.
Supported operating systems for PCs and laptops are Windows and Mac.

A free application for iPad e iPhone mobile devices can be downloaded from the AppStore.

For tablets e smartphones running the Android operating system there is a free application on Google Play.

For **conference rooms** there is a wide range of HD terminals which can satisfy any needs of group videocommunication. This service is compatible with any videoconferencing terminal of **H.323** and **SIP** standards.

The purchase options of this service are simple, clear and affordable for everyone: on a pay-per-use basis with per minute billing or an annual flat-fee subscription basis.

VIDEODESKTOP SOLUTION

Videoconferencing saves your time and money

Videoconferencing brings huge benefits to companies: travel costs and unproductive time reduction, internal and external communication improvement, faster decision-making, more effective workgroups collaboration. These benefits can be easily quantified in time and money, saved in daily company management. Videoconferencing is therefore an essential advantage for those companies that want to fight the crisis and compete in the global market.

HD videoconferencing for everyone

With JOINVIDEO service everyone, from a single professional to large companies, will have at their disposal our cloud-based videoconferencing infrastructure, which can be used via ASDSL Internet connection on PCs, tablets, smartphones and room videoconferencing systems. The prices of this service are affordable for everyone and the purchase options are simple and clear: on a pay-per-use basis with per minute billing or an annual flat-fee subscription basis.

Privacy and security

The use of entry codes and moderation codes, which can be modified for every new event, protect videoconferences from an unauthorized access. Privacy options allow you to manage transmission and suspension of your audio or video during the conference.

Recording e streaming

Videoconferences can be recorded on a DVD or transmitted in streaming for the benefit of people who didn't manage to attend the meeting but are interested in its viewing.

H.323/SIP and ISDN compatibility

The service is perfectly compatible with any videoconferencing terminal of H.323 and SIP standard. At your request, ISDN systems can also be connected, as well as telephone devices (audio only).

Event management

Our skilled technical staff is always at your disposal to manage particularly important events, as well as videoconferences, where professional equipment and operators for audio/video administration may be needed.

VIDEOCONNECT SOLUTION

Features & Capabilities
Maximum participants in a meeting
50 standard – **200 optional**
